PROFESSIONAL PROFILE

As a junior front-end developer, I have been actively working on and learning **HTML**, **CSS**, and **JavaScript**. Through this process, I have developed a strong proficiency in creating clean, optimized, and responsive web designs. Additionally, I have focused on writing clean and well-structured code to ensure the quality of my projects. Moreover, I have found that being able to incorporate animations for enhancing the user interface adds an extra touch of elegance to the overall design. As I continue to grow and learn in my role, I am eager to secure an internship that will enable me to further refine my skills and contribute to creating exceptional web experiences.

CORE SKILLS

- Html
- CSS (Animations)
- Git
- JavaScript (JS Libraries)
- DOM manipulation
- Bootstrap

QUALIFICATION

- **BSCS student** | UMT | Current CGPA 3.85/4.00
Relevant coursework – OOP, Database systems (MySQL, Mongo DB), DSA, Web Technologies (Html, CSS, JavaScript, Node.js, Express.js, Rest API)
